Substitute declaration limited to known facts. The Company receives this declaration as a private party, to the extent permitted in private-party relationships by Art. 2 of D.P.R. no. 445 of 28 December 2000. The undersigned declares under Arts. 46 and 47, solely as to statuses, personal qualities and facts within their direct knowledge: (i) that the identifying data in this form are accurate; (ii) that they received or were given access to each file listed in the table below; (iii) that they were able to open, read in full and understand those files before signing, requesting clarification where needed; (iv) that the stated codes, file names and SHA-256 fingerprints correspond to the CAdES/P7M files actually made available to them; and (v) that they are unaware of any substitution, omission or discrepancy in the package delivered. Where the statutory conditions are met, untrue substitute statements alone may result in loss of benefits under Art. 75 and the consequences under Art. 76 of that decree. Those consequences do not extend to contractual consent, legal assessments or third-party facts not directly known. This declaration does not replace technical verification of signature validity, package integrity or the operation of insurance cover.

Separate contractual manifestation. Separately from the substitute declaration and without extending the consequences under D.P.R. 445/2000 to contractual consent, the Signatory confirms delivery and review of the package identified in the table, executes the contract and attachments through the primary signature on this sheet and, through the second signature, specifically approves only the clauses listed in the block prepared under Arts. 1341 and 1342 of the Italian Civil Code. SHA-256 fingerprints are calculated on the CAdES/P7M files after the Company's signature and must be compared with the files actually delivered. A copy with an empty table, missing hashes, an inconsistent perimeter or incomplete data is not executable and does not attest receipt, understanding or acceptance.

Contract Code

Digital Fingerprint (SHA-256)

Specific approval ex Arts. 1341-1342 Civil Code — The undersigned specifically approves the following clauses:

Art. F1 — Guarantees, Definitions, Effectiveness and Penalties
Art. F4 — Payments, Default and Refunds
Art. G1 — Scope, access, credentials, brand, transfers and portfolio
Art. G2 — Confidentiality, access, security and software
Art. G3 — Termination, reputation protection, penalties and Dsan2G
Art. T1.2 — Independence of Relationships and No Tacit Renewal
Art. T2 — Methods of Termination
Art. T2.6 — Formal Access Ban and Remedies

Art. T2.7 — Contractual Penalties for Unauthorized Physical Access
Art. R2 — Real Estate Identification and Cadastral Data
Art. R3 — Modification and Update Procedure (Ius Variandi)
Art. R3.7 — Hierarchy of Sources and Interpretative Criteria
Art. R3.8 — Signing Procedures and Legal Validity
Art. R4 — Blacklist Register and Formal Notices
Art. D1 — Notice, Governance and Optional Processing

Legal notice, delivery, and final hashes (Sign1): this form has subscription effect only in its final version listing the files actually signed in CAdES/P7M format and their SHA-256 fingerprints calculated after the Company's signature. Hashes of unsigned PDFs are not valid final hashes. A copy with an empty table or missing fields must not be signed and does not attest receipt or acceptance. Declarations under Arts. 46 and 47 of D.P.R. 445/2000 concern only statuses, personal qualities, and facts within the declarant's direct knowledge; contractual acceptance remains separate. The consequences under Arts. 75 and 76 apply only in the cases and to the extent governed by that consolidated act. Under Art. 38, a handwritten signature not placed before the recipient must be accompanied by an unauthenticated copy of a valid identity document and sent through a protected channel; a suitable qualified or digital electronic signature may be used instead. The Italian version is official; the English version is an unofficial courtesy translation.
